

THE
PROFESSIONAL
SPRAYBOOTH
RANGE

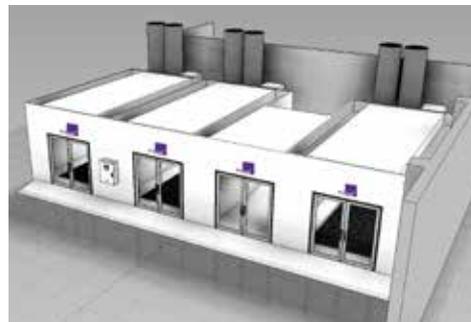

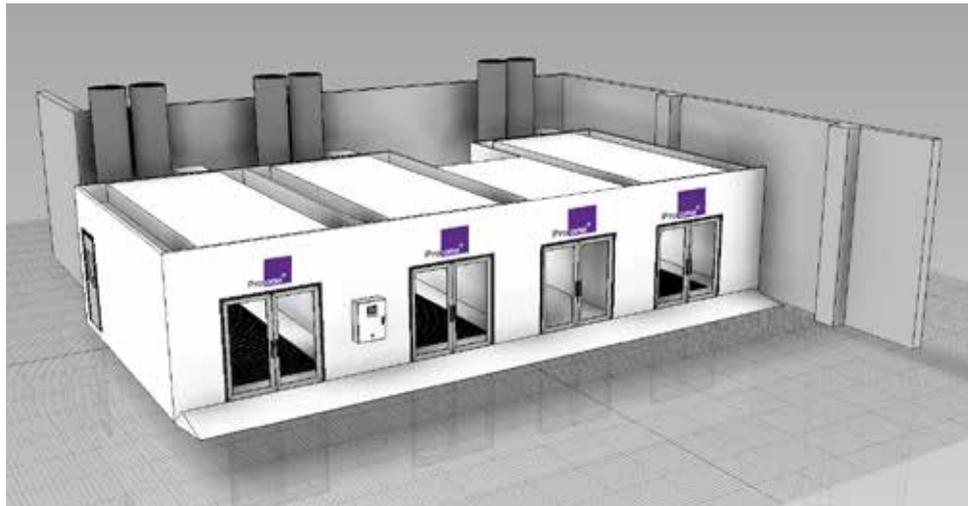

Beyond Refinishing...

ABOUT US

ISS Automotive are an innovative, forward-thinking division within the ISS Engineering Group who's focus is the continued development of its state of the art products and the dedicated support of repairers within the Automotive Refinish sector.

We have a team of highly experienced Engineers and Designers who work to continuously update the technology required by our customers, always leading the way in an ever-evolving Industry.

Our 'Professional Range' of Spraybooths offers an option for every bodyshop from the smallest independent to the largest volume repairers, delivering the quality and reliability that is so vital in this demanding industry.

Pro One

The underfloor extracted Pro1 is our mid range spraybooth designed to perform beyond expectation in even the most demanding bodyshops.

Pro One+

Our premium underfloor extracted spraybooth, engineered to the highest standard and offering industry leading performance through innovative design. The Professionals choice.

Pro Two

Our entry level rear extracted booth offers quality, reliability and performance affordably without compromising the finish.

Pro Two+

A high specification with proven performance makes the Pro2+ the perfect choice for bodyshops requiring a high-quality finish where pit excavation is not viable or workshop space is limited.

Pro Fleet

Offering all the benefits of the Pro2 to customers refinishing light commercials, where quality and key to key times are so important.
